AGENCY ONLINE ACCOUNTS

Agencies require certain features in order to make their ordering process smooth. That's why we have Agency Online Accounts. An Agency Account will allow you to place orders that are tax exempt, have payment terms and even contract pricing.*

Here are some (but not all) of the benefits of signing up for an Agency Account:

TAX EXEMPT

If your agency is tax exempt, you can enjoy tax free online ordering by simply submitting the tax exemption documentation for approval.

PAYMENT TERMS

With an Agency Account you can take advantage of Net30 Terms - giving you 30 days to pay your invoice.

SPECIAL PRICING

Special pre-negotiated or contract pricing will be reflected in your shopping experience when you are logged in.

ONLINE QUOTES

Agencies can submit a quote request online and manage all the messaging and processing at your convenience.

PRODUCT

Shop our full online product offering or limit your Agency Account to products specific to your department. We work with your agency to offer the perfect mix of products.

ACCESS

User controlled roles allow your department to manage each members access. Decide who can place orders, see agency invoices, create shopping lists and more.

MANAGE, TRACK, AND CONTROL ALLOWANCE-BASED PURCHASES

We can also help you manage your agency's Allowance/Allotment Program with confidence.

**Access, special or contract pricing, terms and tax exemption are based on Curtis approval with valid documentation. Agency Accounts are not designed for the individual user, they are designed and intended for authorized department or agency users.*
