ABOUT US

Curtis delivers firefighting and emergency products and services in a way that exemplifies our core values of Quality, Service, Integrity and Caring. Outstanding customer service is a top priority for every team member, and that commitment continues after the sale. Our factory-trained Service Technicians provide service and maintenance to ensure outstanding performance on the tools you use. Our mobile service vehicles come to your location and inspect, service, repair and test your equipment so you can rely on the tools.

SCBA EQUIPMENT SERVICE

Your breathing apparatus is the most critical component of your personal safety equipment. Our SCBA technicians are the reliable source to keep your equipment in top performing condition.

We use the **Honeywell Analytics Posi3 USB** for flow testing, ensuring all your SCBA equipment is working at its peak performance. These test machines meet the stringent requirements specified by NFPA. Have your own Posi3 USB? We can support you with parts and service.

We also use, sell and service the **OHD Quantifit** and **Quantifit2** for fit testing. Valuable features of the Quantifit include: pre-programmed exercise and test protocols that meet OSHA standards, easy-to-conduct tests, speed fit factor calculations and no messy challenge agents or alcohol.

WE'LL COME TO YOU!

MOBILE HYDRO TESTING

Many cylinders require testing every 3-5 years. By providing us with the cylinder age and type of material, we can set custom schedules to meet your hydro testing needs.

We can perform cylinder hydrostatic testing at your facility. Our mobile trailer and technician will set up at your location and can test 50+ cylinders per day.
