CleanSpace®
RESPIRATORS
Free the way you breathe™

LIGHTWEIGHT, BREATHABLE PAPR PROTECTION THAT MOVES WITH YOU.

CLEANSPACE CST ULTRA POWER SYSTEM

ITEM #: CST1011

Wildfire smoke is deadly — yet too many firefighters are left unprotected. CleanSpace CST ULTRA delivers the protection frontline crews need.

- NIOSH approved PAPR with HEPA filtration
- Breath-responsive AirSensit® technology
- Light and comfortable – Less than 1 lb.
- Filters for hot fire sites (initial response) and cold fire sites (secondary exposure)
- Full face and half face mask options
- Does not meet an NFPA standard

CX WILDLAND VENT SHIRT

ITEM #: FC100 COAXSHER

The Coaxsher CX Wildland Vent Shirt is built for heat-intensive wildland operations. Its Xvent system releases trapped body heat and draws in cooler air, helping firefighters regulate temperature during long shifts. A tailored athletic fit, articulated back pleat, and thoughtfully placed pockets ensure full mobility and easy access to essentials.

- Certified to NFPA 1977 and NFPA 1975
- 5.8 oz. Tecasafe® Plus

VECTOR WILDLAND FIRE SHIRT

ITEM #: FC103 COAXSHER

The Vector Wildland Fire Shirt is engineered for all-day comfort during demanding shifts, using lightweight, breathable FR materials that deliver excellent mobility and airflow in high-heat conditions. Its streamlined design ensures unrestricted movement while helping firefighters stay cooler and more focused on the line. Built to pack down efficiently for space-saving storage, it remains durable, dependable, and high-performing even after repeated laundering.

- Certified to NFPA 1977 and NFPA 1975

Curtis - Tools for Heroes®

BETAX WILDLAND FIRE SHIRT

ITEM #: FC105 COAXSHER

The BetaX maximizes cooling with Xvent airflow vents on the biceps and lower chest, helping regulate temperature during extended operations. Reinforced DefenseCore zones provide added strength in high-wear areas without restricting movement. A ¾ Nomex® zipper, top-button collar, and Mil-Spec Velcro® cuffs enable quick ventilation control in changing conditions. Angled bicep pockets with segmented Velcro® keep gear secure and accessible with gloves.

- Certified to NFPA 1977 and NFPA 1975
- 5.8 oz. Tecasafe® Plus
- 6.0 oz. DefenseCore reinforcement panels

STRYKER WILDLAND FIRE SHIRT

ITEM #: FC106 COAXSHER

The Stryker Wildland Fire Shirt offers reliable heat mitigation with Xvent airflow openings positioned for optimal cooling. A stand-up collar, ¾ Nomex® zipper, and Velcro® cuffs let wearers fine-tune ventilation and protection on the line. Functional sleeve pockets provide quick, glove-friendly access to frequently used items.

- Certified to NFPA 1977 and NFPA 1975
- 5.8 oz. Tecasafe® Plus
- 6.0 oz. DefenseCore reinforcement in wear areas

AFFINITY LL WOMEN'S WILDLAND FIRE SHIRT

ITEM #: FC110 COAXSHER

The Affinity LL is purpose-built for women, offering a tailored fit that improves mobility, comfort, and range of motion during demanding wildland operations. Xvent airflow openings at the biceps and lower chest help regulate core temperature in high-heat environments.

- Certified to NFPA 1977 and NFPA 1975
- 5.8 oz. Tecasafe® Plus

THE POWER OF THE HONEYCOMB

SQUISH® Pad Technology is designed with an array of honeycomb structure walls and cavities that work together to provide super comfort and improved protection. SQUISH® pads protect like hard shell pads without the weight or discomfort. Exclusive to FireLine™ Multi Mission garments, these pads are virtually indestructible, will not flatten and will last for the life of the garment. SQUISH® pads are encased within high-strength para-aramid needle punch felt and Nomex® IIIA woven fabric for increased flame, cut and puncture resistance.

SQUISH® pads are not UL Certified.

OUTER SHELL FABRICS | NO ADDED PFAS

Agility® Tactical with FreeFAS® DWR Finish
Combines maximum protection and comfort with increased flexibility. This ultra-lightweight fabric features Enforce™ Technology to ensure a balanced fabric that promises strength, durability and increased mobility, making it the ideal fabric choice for tight spaces and difficult extrications.

Sigma™ 4 Star™ with PF Zero™ DWR Finish
Twill weave with durable water repellent finish. Inherently flame resistant and does not melt, drip or burn after exposure to heat or flame. Solution-dyed which maintains colorfastness and appearance better than other fabrics on the market. Sigma™ is exceptionally comfortable due to soft, supple hand and superb wicking abilities, keeping the wearer cooler and drier.

Nomex® IIIA with FreeFAS® DWR Finish
Nomex® IIIA has been the decades-long standard which other FR fabrics use for comparison. Extremely reliable FR fabric with over 50 years of proven protection in the firefighting industry. Nomex® IIIA resists acids, alkalis and industrial lubricants. Easy to wash and dry with very low shrinkage. Fabric combines mechanical strength with dependable abrasion and tear resistance for a long wear life.

Westex Synergy® Pro with Hydropel™ DWR Finish
Similar flame resistance and durability to Nomex® IIIA at a more affordable price. A softer, more advanced outer shell fabric engineered to outperform other leading aramid fabrics when it comes to hand and appearance. This innovative fabric delivers maximum levels of comfort with inherent FR protection. Westex Synergy® Pro has superior color uniformity and maintains its appearance keeping your crew looking professional even after repeated industrial washes.

Westex DH® Rip-Twill with Hydropel™ DWR Finish
A patented, tri-certified (NFPA 1951, NFPA 1977 and ANSI 107) fabric, Westex DH® Rip-Twill is engineered to manage moisture and breathe better than other leading FR fabrics. With a low propensity for pilling, this exceptionally comfortable fabric gives first responders a more professional look. Fabric also incorporates a unique rip-twill weave for outstanding durability and tear resistance.

PGI FIRELINE Multi Mission

These garments are built for durability, featuring rugged Pioneer™ twill reinforced elbows and cuffs that increase tear and abrasion resistance. The Alpine-style collar provides neck protection without the need for a separate throat strap, while 3M™ Scotchlite™ retroreflective trim improves visibility in low-light conditions. **Dual-certified: NFPA 1951 and NFPA 1977. UL Certified.**

TREX MATERIALS

Nomex® (6.0 or 6.8 oz.)
Nomex® fibers provide built-in protection against heat and flames. They won't melt or drip, reducing burn risk, and have a high ignition point for added safety. If ignited, Nomex® self-extinguishes and forms a protective char to slow flame spread.

Agility® Tactical (5.0 oz.)
Agility® is a light-weight fabric that provides excellent strength during thermal exposure. The fabric is used as an outer shell that offers ease of movement and minimal heat stress.

Defender® M (6.5 oz.)
This military-grade fabric brings a long list of benefits to the CrewBoss TREX Ensemble. Defender® M offers strength, exceptional moisture management, and dependable flame protection.

Sigma™ 4 Star (7.0 oz.)
Using a revolutionary, proprietary fiber blend, Sigma™ 4 Star fabric offers high levels of thermal protection, while still being exceptionally breathable.

FR PERFORMANCE BASE LAYER GARMENTS

The FireDFND Collection is made with TenCate TechT4 fabric, a soft and comfortable fabric that provides better protection than cotton. TenCate TechT4 delivers the added bonus of anti-microbial protection which helps to reduce the chance of unpleasant odors in the garment. TenCate TechT4 makes the perfect addition to multi-layer, flame-resistant clothing systems. It is "non-contributory", which means it self extinguishes and won't ignite, melt, drip or char. TechT4 enhances the protection level of your FR ensemble.

- Quick drying
- Will last 5X longer than a normal cotton shirt
- Anti-microbial protection

STRIKETEAM WILDLAND XTO™

ITEM #: 7400283 ESS

NFPA

The Striketeam Wildland XTO features closed-cell face padding for maximum durability and easy cleaning, while open-cell vent foam provides filtered ventilation to release humid air while helping prevent airborne particles from entering. Heat- and flame-resistant components, a patented Speed-Clip™ strap for quick gloved-hand adjustment, and a roomy frame that fits over most eyeglasses make it ideal for wildland and rescue applications.

- NFPA 1500, ANSI Z87.1-2020
- One-piece wrap-around strap and closed-cell face padding
- Compatible with wildland and rescue helmets
- Two tear-off lens covers included

ESS

FIREPRO WILDLAND SERIES

NFPA

The **FirePro Wildland Series** combines low-profile performance with wildland fire protection. Heat- and flame-resistant components and a compact frame minimize helmet interference while providing wide peripheral vision. Each goggle features ESS's patented Speed-Clip™ system for quick, gloved-hand strap adjustment, plus full-perimeter ventilation and filtration to reduce fogging and filter airborne particles. Compatible with the ESS U-Rx™ prescription insert.

Danner SINCE 1932

MODERN FIREFIGHTER 8” BOOTS

ITEM #: 18051 DANNER

NFPA PFAS

Combines the supportive benefits of an alpine hiker with the stringent standards of an NFPA-certified boot.

Featuring polishable, full-grain leather, a waterproof Danner Dry lining and a black composite toe (NMT), this boot is built to meet the rigorous demands of wildland firefighters. The durable Vibram S587 outsole provides oil- and slip-resistant traction over rugged and high-angle terrain.

18051

DANNER SIZES

Full Sizes 5–15; Half Sizes 5.5–11.5;

WILDLAND TACTICAL FIREFIGHTER 8” BOOTS

ITEM #: 18054 DANNER (SMOOTH-OUT)
ITEM #: 18050 DANNER (ROUGH-OUT)

NFPA PFAS

Blends the lightweight and supportive benefits of an alpine hiker with the stringent standards of an NFPA-certified boot.

Featuring fire-resistant, durable, smooth out *(18054)* or rough-out *(18050)* leather and a breathable mesh lining, this boot is handcrafted in Danner’s Portland, Oregon factory with a reinforced opanka-stitch construction that provides a superior bond between the upper and outsole. The durable, Vibram S587 outsole is specially designed for oil- and slip-resistant traction over rugged and high-angle terrain.

GLOBE® NFPA

STATION/WILDLAND 10” BOOTS

ITEM #: F201050 GLOBE (MEN’S)
ITEM #: F20105W WOMEN’S GLOBE (WOMEN’S)

With a cool and highly breathable AEROSPACER mesh lining and Globe’s light and flexible PREDATOR™ outsole, these boots are black with a plain toe for everyday station wear, and they include Globe’s composite components — safety toe cap, penetration-resistant insole, and shank — for added protection.

EMS/WILDLAND 10” BOOTS PFAS

ITEM #: 2201060 GLOBE (MEN’S)
ITEM #: 220106W GLOBE (WOMEN’S)

Built like Globe’s TECHNICAL 10” with the GORE-TEX CROSSTECH® bootie liner but with the more aggressive PREDATOR™ outsole and without the met-guard, these boots are ready for EMS runs and wildland response and all black for everyday station wear.

TECHNICAL 10” BOOTS PFAS

ITEM #: 2201020 GLOBE (MEN’S)
ITEM #: 220102W WOMEN’S GLOBE (WOMEN’S)

Globe TECHNICAL is quad-certified to be the perfect complement to your structural boots. The exclusive PORON® XRD™ impact foam internal metatarsal guard provides impact protection you’ll hardly even feel.

HANDLE

42", 48", 54" or 60" - Shaped Ash

5.5" HOE/RAKE

ITEM #: 55HR

This heavy-duty Hoe/Rake Combo features a 5.5" wide head and is a compact version of the 7" Hoe/Rake (70HR), making it ideal for moving dirt during trail building and other tasks.

HANDLE

40" - Curved Hickory
48" or 54" - Shaped Ash

6" PICK/HOE - 40"

ITEM #: 60A

This extra heavy-duty tool features a 6" wide cutting edge and a 2" spike for digging out embers, rocks, and roots, with the head securely glued and riveted to a 40" curved hickory handle for added stability.

7" HOE - 40" (HIGHLANDER)

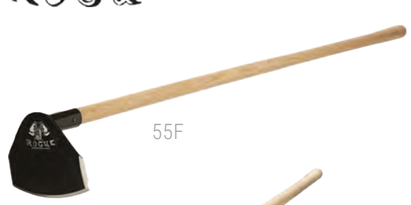

ITEM #: 70H

The 7" wide by 9" high blade features a curved, sharpened bottom edge with sharpened sides, making it ideal for fireline and trail building and a favorite among many Hotshot firefighting crews.

7" HOE - 60" (CROSSOVER)

ITEM #: 70J

The 7" flat hoe seamlessly transitions from the garden to the field and beyond. Its 7" wide by 5.25" high head is cut from hardened no-till blade steel, sharpened on three sides, and securely glued and riveted to a 60" shaped ash handle for durability and performance.

70AR

7" TRAVIS TOOL - 48" OR 54"

ITEM #: 70AR

This multi-purpose tool features a beveled scraper on one side, a rake on the other, a 7" wide sharpened hoe on the bottom, and a 2" pick on top, and is available with a heavy-duty shaped ash handle measuring 1.5" in diameter.

7" FIELD HOE

ITEM #: 70F

This popular 7" field hoe clears brush and roots up to 1" in diameter and moves dirt for fireline maintenance and trail building. Its 7" wide by 5.5" high steel head is sharpened on three sides and securely glued and riveted to the handle for enhanced stability, versatility, and long service life.

HANDLE

42", 48", 54" or 60" - Shaped Ash

7" FIELD HOE - 40"

ITEM #: FB70H

This tool comes with a 40" curved hickory handle and a 7" wide by 9" high head featuring a sharpened flat bottom edge, making it ideal for fireline and trail building work.

7" HOE/RAKE

ITEM #: 70HR

This heavy-duty Hoe/Rake Combo features a 7" wide head with a 5-tooth rake, making it ideal for removing small trees and shrubs, gathering debris, and tackling a wide range of jobsite tasks.

HANDLE

40" - Curved Hickory
48" or 54" - Ash

8" HOE (RHINO)

ITEM #: 80R

This large hoe features an 8" wide head and excels at fireline and trail building, efficiently moving large amounts of loose, less compact soil.

HANDLE

40" - Curved Hickory
42", 48" or 54" - Shaped Ash

8.5" HOE - 40" (THE BOSS)

ITEM #: 85H

If "BIG" is important then "The Boss" with its 8.5" wide head is the one you need.

11.5" FIRE RAKE - 54 OR 60"

ITEM #: 115FR

This heavy-duty rake features an 11.5" wide head ideal for gathering debris and tackling a variety of jobs. It is available with a 1.375" shaped ash handle in 54" or 60" lengths, and includes 3" long by ¾" wide teeth spaced 1" apart and sharpened on the bottom to cut through tough soil.

FOREST ADZE HOE - 34"

ITEM #: 61
ITEM #: 90015 (REPLACEMENT SLIP-ON HICKORY HANDLE)

Featuring a straight 6.25" blade and a slip-on hickory handle, this adze is built for clearing brush, digging roots, and shaping trails with reliable performance.

J.R. FIRE TOOLS

HOE - 40" OR 48"

ITEM #: HOE40 (40" HICKORY HANDLE)
ITEM #: HOE48 (48" ASH HANDLE)

Available in 40" for aggressive chopping or 48" for standard chopping, this hoe is built with proprietary heat-treated steel that holds an edge longer and resists chipping. 8"W x 7-3/4".

POUNDER II - 40" OR 48"

ITEM #: POUNDER II 40 (40" HICKORY HANDLE)
ITEM #: POUNDER II 48 (48" ASH HANDLE)

The Pounder II is available in 40" for aggressive chopping, wedging, and falling, or 48" for standard chopping, wedging, and falling—ideal for fireline construction, trail building, and as a reliable secondary fire tool. 8"W x 9-1/2".

SUPER P PRO - 40" OR 48"

ITEM #: SUPER P PRO-40 (40" HICKORY HANDLE)
ITEM #: SUPER P PRO-48 (48" ASH HANDLE)

The Super P Pro provides wildland firefighters with a handy Pulaski tool great for chopping, cutting, or grubbing.

CHINGADERA - 40" OR 48"

ITEM #: CHINGADERA 40 (40" HICKORY HANDLE)
ITEM #: CHINGADERA 48 (48" ASH HANDLE)

Excellent for deep rooted material, cut banks, benching, trenching, chopping, grubbing and moving large amounts of debris. 9-1/2" hoe.

ENHANCED VISIBILITY OPTION

Some J.R. Fire Tools are available with optional custom 2" reflective tape or handle wrap grip tape for enhanced visibility and control.

Haglöf SWEDEN

SWEDISH SAFETY BRUSH AXE - 27"

ITEM #: 33045

Ideal for trailblazing, pruning, and brush clearing, with interchangeable blades, a reinforced axe head, and durable hickory handle.

COUNCIL TOOL
Building Tools - Building Trust...Since 1886

FIRE SWATTER - 60"

ITEM #: FS15 FSS

Also known as a fire flap, flail, or beater, this tool smothers fire and features a durable ash handle with a reinforced ferrule.

FIRE HOOKS UNLIMITED

BRUSH FIRE TOOL SYSTEM

ITEM #: BFT-5A

A versatile, interchangeable tool system that allows firefighters to quickly swap head attachments. Features a durable 1” steel handle with heavy-duty stainless steel threads and includes Celtex® Grips. This system includes these five tool heads:

- McCloud
- Brush Rake
- 14 Tine Forged Rake
- Pointed Shovel
- Square Shovel

SHO-HOE TOOL

ITEM #: SHO-HOE

- Combines a shovel, hoe, grub axe, brush hook, weed axe, ditch hook, and trenching tool in one
- Heavy-duty twist-lock mechanism locks straight or at a 90° angle for shovel or hoe use
- Fiberglass handle with a non-slip Celtex® grip for comfort and control

COLLAPSIBLE RESCUE SHOVEL

ITEM #: CRS

- Combines four tools in one: shovel, hoe, axe saw, and piercing tool
- Durable “D” handle for enhanced grip and control

GENTLE GIANT SNAKE TONGS

ITEM #: 100-GG-T40 (40"), 100-M1-T40 (M-1, 40"), 100-M1-T52 (M-1, 52")

Built for control and durability, these snake tongs feature a triple rubber-coated top jaw paired with a polished lower jaw to provide a secure grip while reducing forward motion. Its aircraft-grade aluminum tubing construction, combined with a concealed cable and spring, delivers reliable strength, smooth operation, and long-term performance in demanding field conditions.

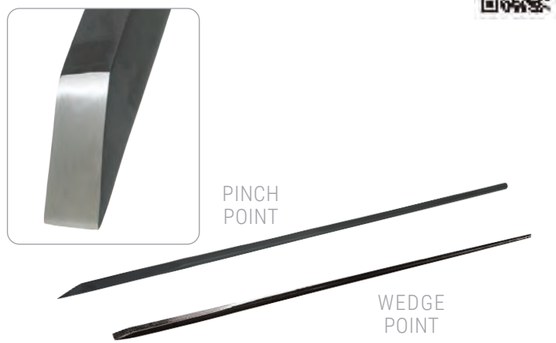

Original

- **100-GG-T40** - 40"
- About a 2¼" wide jaw - distributes pressure over a larger surface area, which can be more gentle for heavy-bodied or larger snakes

M-1 Series

- **100-M1-T40** - 40"
- **100-M1-T52** - 52"
- About a 1" wide jaw - easier to work in tighter spaces and maneuver around rocks, logs, crevices, etc.
- Better suited for smaller-bodied snakes or situations where precision matters

SIZES
1.125" x 51" - 12 lbs.
1.25" x 60" - 18 lbs.

Made with Hexagon steel. Forged rolled for durability. Painted with black finish to deter rust.

ENTRENCHING TOOL

ITEM #: F08-N

In a constantly changing fire environment, a folding shovel can be a practical, dependable tool to keep on hand. Whether moving dirt, sand, or snow, it provides a quick solution when hand tools are limited. This all-steel entrenching tool features a tempered steel blade with integrated teeth for cutting and chopping, along with a strong triangular handle that offers a secure, comfortable grip. When folded, it packs down to a compact size that's easy to carry or stow in a vehicle or pack.

XL ENTRENCHING TOOL

ITEM #: F20-CP

The XL version builds on the standard entrenching tool with a longer handle and larger blade to provide increased leverage and reach for heavier digging and material movement. Designed for users who need more capability in the field, it offers improved efficiency for fire line support without sacrificing packability.

SOG®

BUSHCRAFT HATCHET

ITEM #: 32-50-02-43

The SOG Bushcraft Hatchet is a balanced, dependable cutting tool suited for field use. Its 4.24" cutting head is forged from durable 5Cr15MoV steel with a 6.55 mm thickness for controlled chopping and splitting. The micarta handle provides a secure grip in wet or dry conditions, and the lightweight design makes it easy to carry on assignments where pack weight and reliability matter.

FASTHAWK - BLACK

ITEM #: F06TN-CP

The SOG FastHawk is a compact, lightweight field tool built for durability and control. It features a coated 420 stainless steel head on a reinforced polymer handle with a textured hammer surface, and includes a nylon sheath for easy belt or pack carry.

GERBER

SCAN TO SHOP
WILDLAND
HAND TOOLS

E-TOOL

ITEM #: 30-000075

Built for wildland and field operations, this collapsible digging tool is well suited for chopping and cutting through roots with its serrated blade edge. A glass-filled nylon handle, 7075 aluminum shaft, and powder-coated steel blade deliver a compact, durable tool that stands up to demanding use.

- Minimalist digging and emergency use
- Smallest and most packable option

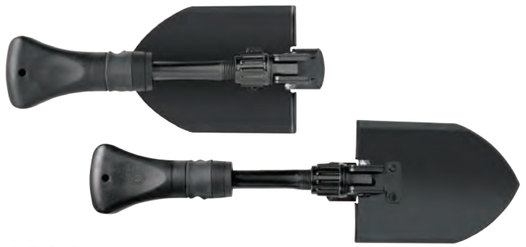

DREDGE

ITEM #: 1064419

Keep operations moving on the line or in camp with the Dredge, a full-size folding shovel built for field use. Ideal for camp and spike operations, trenching for drainage, and clearing rocks or debris from work areas, it's a reliable addition to vehicle kits and support gear. When the task is complete, it folds down for compact, space-efficient storage.

- Closest to a traditional shovel in size and leverage
- Larger and heavier than the others; not pack-focused

GORGE

ITEM #: 22-41578N

This lightweight, foldable shovel is easy to carry and well suited for backcountry and field use. The glass-filled nylon shaft with a rubberized grip provides secure control for digging or hammering, while the folding design converts from a spade to a hammer and locks closed with the push of a button for compact storage.

- Lightweight, versatile field tool
- Smaller and lighter than the Dredge

BUSHCRAFT SAW

ITEM #: 1067465

A reliable, packable saw is a critical tool in the wildland environment. The Bushcraft Saw delivers efficient, smooth cutting for clearing small material, cutting shelter poles, or handling unexpected field tasks. It cuts fast when deployed and folds down compactly, making it easy to carry and ready whenever the job demands.

GERBER

BUSHCRAFT HATCHET

ITEM #: 31-003782 (GREY)
ITEM #: 31-003783 (COYOTE BROWN)

The Bushcraft Hatchet supports critical field tasks such as cutting shelter material and processing wood, with an ergonomic design that reduces weight and improves grip during extended use. Machined blade relief allows for deeper, more efficient cuts, while a concealed, water-resistant handle compartment provides secure storage for paracord, fire-starting materials, or other small essentials.

- Shorter handle makes it lighter and easier to carry on a pack
- Primary strength: Quick cuts, limbing, kindling, and shelter materials

COLORS

Grey *Coyote Brown*

BUSHCRAFT AXE

ITEM #: 31-003773 (GREY)
ITEM #: 31-003774 (COYOTE BROWN)

The Bushcraft Axe is built for essential wildland field tasks, including wood processing and shelter construction. An ergonomic, lightweight design with machined blade relief delivers efficient cutting and improved control during long shifts. Two water-resistant handle compartments securely store paracord, fire-starting materials, or other small essentials.

- Longer handle provides greater swing power and efficiency
- Primary strength: Processing larger diameter wood and sustained chopping

COLORS

Grey *Coyote Brown*

5-IN-1 MULTI-PURPOSE TOOL ⚠

ITEM #: 40

This multi-purpose field tool combines a shovel, saw, pick, axe head, flat hammer, and stake puller into one compact system for camp and support tasks. A removable handle compass aids basic navigation, while internal storage holds tinder or other small essentials. Includes a carrying case for easy transport and storage.

3000 POCKET WEATHER METER

ITEM #: 0830

Simple, accurate weather meter that measures wind speed, temperature, and humidity while calculating values like heat index, wind chill, and relative humidity. Features data hold, a built-in clock, and a backlit display for reliable day- or night-time use.

3500 WEATHER METER

ITEM #: 0835

Delivers fast, reliable environmental measurements for confident decision-making in the field. This compact, multi-function pocket weather meter measures wind speed and key atmospheric conditions, with a protective slip-on cover to shield the display and impeller during transport.

- Pressure sensor
- Relative humidity sensor
- Temperature sensor
- ***Olive Drab color has a night-vision preserving backlight that helps users sustain natural night vision***

3500 DELTA-T WEATHER METER

ITEM #: 0835DT

Simple, accurate weather meter that measures wind speed, temperature, humidity, and pressure while calculating Delta-T, dew point, relative humidity, and more. Features data hold, a built-in clock, and a backlit display for reliable day- or night-time use.

5000 ENVIRONMENTAL METER

ITEM #: 0850BLK

ITEM #: 0850LBLK (WITH LINK)

Handheld, portable environmental meter that measures wind speed, temperature, humidity, pressure, and more than 10 total environmental parameters, with onboard data logging and graphing on a large, high-contrast display. ***Features optional Bluetooth® LiNK connectivity for wireless data sharing.***

*Waterproof to IP67 (3'/1M for 30 minutes)

RH CALIBRATION KIT

ITEM #: 0802

Enables dozens of in-field recalibrations to keep your meter performing within specifications. The included manual provides detailed, step-by-step instructions.

USB DATA CABLE

ITEM #: 0785

USB Data Transfer Cable enables wired communication between any Kestrel 5 Series meter and Windows or Mac computers with a USB port.

LINK WIRELESS DONGLE

ITEM #: 0786

LiNK Wireless Dongle enables wireless communication between any LiNK-enabled Kestrel 5 Series meter and a PC or Mac.

Kestrel Instruments

COLLAPSIBLE LIGHTWEIGHT TRIPOD

ITEM #: 0792

Includes an adjustable clamp compatible with all Kestrel meters and is ideal for use with the Kestrel Rotating Vane Mount. Features three-section legs with flip-lever locks and non-marring rubber feet. Extends from 20.5" to 52" and weighs 2.3 lbs.

0792

PORTABLE TRIPOD WITH CLAMP

ITEM #: 0799

Clamp any Kestrel into this sturdy and lightweight tripod to take readings in the field. Portable and weather resistant, it is ideal for traveling and usable in all weather conditions.

0799

BASIC VANE MOUNT

ITEM #: 0781

Use this portable rotating vane mount with Bluetooth®-enabled Kestrel Basic Series meters to stream live wind and environmental data to your mobile device. Provides an easy, reliable source of real-time local weather data.

0781

Tripod not included; sold separately

ROTATING VANE MOUNT

ITEM #: 0782

Precision-engineered accessory securely mounts any Kestrel 5 Series meter to any tripod or ¼-20 bracket and includes a carrying case. Once mounted, the Kestrel 5 Series becomes a full-featured weather station, with a large wind vane and precision pivot that keep it oriented into the wind for continuous measurement and logging of wind speed, wind direction, and other key weather parameters.

0782

BELT CARRY POUCH

ITEM #: 0805BLK

Sturdy nylon protects the unit from damage, while a specially designed window keeps the Kestrel's sensors exposed to ambient air for accurate on-the-go readings.

0805BLK

STRIKEALERT

STRIKE ALERT HD

ITEM #: 30001
ITEM #: 40003 (FIELD)

StrikeAlert HD is a personal lightning detector with an intuitive graphical display showing lightning strike distance and a 1-hour storm trend. It features both audible and vibrate alerts and delivers up to 80 hours of operation on two AA batteries. The Field model offers the same capabilities as the HD model, with the added ability to monitor heat risk.

KLEIN TOOLS

DUAL-LASER INFRARED THERMOMETER

ITEM #: IR10

The IR10 is a professional dual-laser infrared thermometer with a wide temperature range and a precise 20:1 distance-to-spot ratio. It features multiple calculation modes and also supports temperature measurement via a standard K-type probe for added versatility.

10X50

DIAMONDBACK® HD 10X42 BINOCULARS

ITEM #: DB-215

Offers a step up in optical performance with sharper resolution, better edge clarity, and improved low-light performance compared to entry-level models. Enhanced HD glass and premium coatings deliver brighter, more detailed views in a lighter, more refined design—making it a strong choice for users who want higher image quality and longer viewing comfort than the Crossfire series.

SOLO® HD 10X36 MONOCULAR

ITEM #: S136

Provides clear 10x magnification in a compact, lightweight monocular that's easy to carry and quick to deploy. Ideal for fast terrain checks and distant observation, it delivers reliable optical performance without the bulk of full-size binoculars.

VIPER® HD 3000 LASER RANGEFINDER

ITEM #: LRF-VP3000

Delivers fast, precise ranging for long-distance observation and target acquisition in the field. Advanced HD optics, angle compensation, and rugged, weatherproof construction provide reliable performance for accurate size-ups and situational awareness in demanding conditions.

SURVIVAL SIGNAL MIRROR

ITEM #: 84998 (2"X3")
ITEM #: 84997 (4"X5")

Designed for emergency signaling, these survival mirrors provide a reliable daytime distress signal using reflected sunlight for long-range visibility. They are lightweight, durable, and easy to aim.

The smaller version is optimized for ultra-compact carry, while the larger version provides greater signaling visibility and range when maximum reflectivity is needed.

SIZES

2" x 3" or 4" x 5"

FEATHERWEIGHT MIRROR

ITEM #: 372615

Made from shatter-resistant metallized polymer, the Featherweight Mirror is ultra-light at just 1/3 oz while still offering a generous 3.125" x 4.25" signaling surface.

GARMIN™

GPSMAP® 65 GPS HANDHELD

SCAN TO **BUY NOW**

ITEM #: 010-02451-00
ITEM #: 010-02451-10 (S SERIES)

Designed for reliable navigation in demanding field conditions, these handheld GPS units deliver highly accurate positioning with multi-band, multi-GNSS support and a rugged, weather-resistant build. They feature bright, easy-to-read displays and intuitive controls.

The "S Series" adds built-in sensors—an electronic compass and barometric altimeter—while the standard version focuses on core GPS navigation without those additional orientation and elevation features.

S SERIES

GPSMAP® 67I GPS HANDHELD WITH INREACH®

ITEM #: 010-02812-00

Provides reliable two-way satellite messaging and emergency SOS capability when working beyond cellular coverage. Featuring inReach® technology with two-way messaging, interactive SOS alerts, location sharing, and mapping, it helps maintain communication, safety, and navigation in remote environments beyond cellular coverage.

RINO® 750T 2-WAY RADIO/GPS NAVIGATOR

ITEM #: 010-01958-30

Offers compact satellite communication combined with a powerful 5-watt GMRS two-way radio for extended-range connectivity up to 20 miles. Enables voice communication, unit-to-unit text messaging, interactive SOS alerts, location tracking, and navigation support to help maintain safety and coordination in remote field environments.

TECHNICAL FOREST HELMET

ITEM #: 537644602

Protective forestry helmet with ear protection, visor and a neck guard. Sturdy yet lightweight, this helmet is designed to be modular, allowing you to change visor and ear protection to fit any condition.

- Approved according to ANSI Z89.1 Class C, ANSI S3.19-1974, ANSI S12.6, CSA Z94.2-M
- Mesh ventilation system for a comfortable head temperature
- UV expire indicator helps estimate when helmet material has degraded and should be replaced
- One-hand ratchet allows the user to quickly and easily adjust the helmet size while wearing it

FUNCTIONAL FOREST HELMET

ITEM #: 592752701

This tough HDPE helmet shell comes complete with visor, hearing protectors, and sun peak. *(Neck guard must be purchased separately)*. 6 Point Textile Suspension + 3 different settings to adjust the depth of how the helmet sits on your head.

- Meets and Exceeds ISEA / ANSI Z89.1-2014 Type I with Electrical Insulation – Rated to Class E
- Wheel ratchet

FUNCTIONAL CHAINSAW PROTECTIVE GLOVES

ITEM #: 529 52

Comfortable saw protection gloves made with goat leather double palms, foam laminated spandex on the back, and nylon neoprene knuckles.

- Cut resistant material in left hand
- High visibility colors
- Comfortable seams
- Reinforced trigger finger
- Saw protection Class 0, 16m/s according to EN 381-7
- Approved according to EN 388 Mechanical hazards CAT II

SIZES

Medium to X-Large

HELMET COMBO

ITEM #: 564101

- High-impact and scratch resistant ABS helmet
- 20 ventilation holes and crown shape for maximum breathability
- UV-stabilized helmet shell with rain gutter
- Four-point, easy to adjust harness
- Highly absorbent, removable and washable sweatband
- Anti-slip headband with easy-to-use “pull-push” system for precise snug-fit
- Durable, lightweight stainless steel mesh visor with strong flip-up-and-down function and extended face protection
- Easy up-and-down adjusting earmuff system with optimum, consistent noise attenuation (NRR value 24 dB) and comfortable ear cushions
- Tested according to ANSI Z89.1-2014

CHAINSAW LEFT-HAND PROTECTION LEATHER GLOVES

ITEM #: 91305

- Extra thick material on the left hand provides chainsaw protection up to the EN381-7 safety standard
- Palms reinforced for maximum control when gripping chainsaw; Close-fit wrist protection – stays put, won’t catch, and keeps out rain, dust, and dirt

Makita

40V max XGT® CORDLESS CHAINSAWS

The XGT® System represents the next generation of outdoor power equipment, engineered to deliver optimal power for heavy-load applications without sacrificing run time. Cordless advantages include no gas or fuel mixing, instant starts, and reduced maintenance. With zero emissions, lower noise, and significantly less upkeep, the XGT® chainsaw line is a smart, modern solution for cutting and trimming applications.

A Makita-built brushless motor delivers gas-equivalent cutting power comparable to a 42cc chainsaw, making it well-suited for fireline construction and fuel reduction work. Extreme Protection Technology (XPT™) enhances resistance to dust and moisture for reliable performance in harsh wildland environments.

BRUSHLESS CORDLESS 18” CHAINSAW KIT

ITEM #: GCU06T1, GCU04T1

Heavy-duty, full-power, high-performance chainsaw.
This 18" chainsaw kit includes a 40V max XGT 5.0Ah Lithium-Ion battery, rapid charger, 18" guide bar, and 18" saw chain.

MODELS | CHAIN TENSIONING

GCU06T1: Tool-less chain adjustment
GCU04T1: Standard chain adjustment - bar nuts (tool required)

BRUSHLESS CORDLESS 16” CHAINSAW KIT

ITEM #: GCU03M1

Lighter than 18", still production-capable. Go-to general-purpose saw.
This 16" chainsaw kit includes a 40V max XGT Lithium-Ion 4.0Ah battery, rapid charger, 16” guide bar, and 16” saw chain.

VP 4-CYCLE FUEL: ETHANOL-FREE ⚠

ITEM #: 620

VP 4-Cycle Fuel delivers quicker, more reliable starts while protecting your small engine equipment from the harmful effects of ethanol in pump gas and varnishes, which are even present in ethanol-free pump gas. The 4-cycle ethanol-free fuel is 94 octane and designed to keep your outdoor power equipment running at peak performance while extending engine life.

- 94 octane, ethanol-free formula helps prevent costly repairs
- Stable in-tank for 2 years or sealed in the can for 5 years
- Meets/exceeds warranty requirements for 4-cycle engines

SIZES

6205: 1 Quart
6201: 1 Gallon
62025: 2.5 Gallon Pail
6202: 5 Gallon Pail
6204: 54 Gallon Drum

VP 50:1 FUEL MIX: ETHANOL-FREE ⚠

ITEM #: 623

VP 50:1 fuel mix is 94 octane and designed for small engines calling for a 50:1 fuel/oil mixture. The oil is virtually smoke-free and substantially reduces engine carbon deposits.

- Pre-mixed and ready to pour
- Stable in-tank for 2 years or sealed in the can for 5 years
- Meets or exceeds JASO FD, ISO-L-EGD, and API TC

SIZES

6235: 1 Quart
6231: 1 Gallon
62325: 2.5 Gallon Pail
6232: 5 Gallon Pail
6234: 54 Gallon Drum

Designed for durability, efficiency, and leakproof performance, it minimizes downtime while maximizing protection on the line.

- **Rugged & Efficient:** 15-gauge aluminum canister with welded double-bottom construction for unmatched durability, plus a "Big Mouth" opening for fast, spill-resistant refueling
- **Engineered for Safety:** Fuel trap and built-in check valve help prevent flashbacks, while a breather valve, oil-proof gaskets, and sealed outlets ensure clean, leakproof operation
- Meets OSHA regulations 29 CFR 1910.114
- Built to DOT regulations for transport of flammable fuel UN #3BI-Y-100
- Built to Forest Service Specification 5100-614

SURE SEAL

OSHA-COMPLIANT DRIP TORCH

ITEM #: 85066

OSHA-compliant and built to agency spec, this drip torch is engineered for long service life and safe transport of flammable fuels.

- Painted red to meet OSHA 29 CFR 1910.144 and complies with USDA Forest Service Spec 5100-614A
- Heavy-duty 15-gauge aluminum canister with welded double-bottom, full-length handle, and D.O.T. approved (UN# 1B1-Y-150) for fuel transport

RED DRAGON® BACK PACK TORCH KIT WITH SQUEEZE VALVE

ITEM #: BP2512SVC

- Vapor Torch
- 5' U.L. Listed LP Gas Hose
- U.L. Listed Excess Flow P.O.L. Fitting
- Back Pack Frame w/Brackets
- 10 lb. Fuel Cylinder (3 gal. capacity)
- Spark Lighter
- Pipe Thread Sealant
- Squeeze Valve & Handle with Adjustable Pilot

BAC-PAC DRIP TORCH

ITEM #: 09100

The Panama Bac-Pac Torch shifts fuel weight to your back, reducing fatigue on large prescribed burns. The 2-gallon steel tank rides in a backpack carrier with 2" shoulder straps, paired with a 30" hose and 24" wand for precise ignition without snagging.

Gravity-fed and designed for diesel or kerosene, it features a looped wand to prevent flashback, no-leak filler cap, internal check valve vent, in-line shutoff, and a brass regulating valve for controlled fuel flow.

- Capacity: 2 gallons
- Tank Empty Weight: 7.2 pounds

FLAME GUN

ITEM #: 05100

The Panama Flame Gun delivers a concentrated, sustained flame—ideal for igniting brush piles and fence rows. It features a 2-gallon pressurized tank, 42" hose, and pistol-grip hand piece with on/off trigger, extended nozzle, and doughnut-style wick holder, projecting flame up to 8' depending on air pressure (75–125 PSI).

Designed for diesel or kerosene, the unit can be pressurized with the built-in pump or an external air source, includes a shoulder strap for carry, integrated field wrenches for service, and a safety loop for secure operation—no fuel preheating required.

- Capacity: 1.75 gallons
- Tank Empty Weight: 10.5 pounds

FLAME TORCH WICKING

ITEM #: 05170

For the 05100 Flame Gun.

DUAL DRIP TORCH CARRIER

ITEM #: 84976

Rugged and lightweight aluminum basket securely holds two standard drip torches for safe transport and easy carrying with the built-in handle.

- Twin 9" deep torch compartments measure 8-1/4"L x 7-3/8"W
- Overall Dimensions: 22"L x 11-5/8"W x 18"H

RED DRAGON® HEAVY DUTY VAPOR TORCH KIT

ITEM #: VT3-30C

- 500,000 BTU Vapor Torch
- 10' U.L. Listed LP Gas Hose
- U.L. Listed Excess Flow P.O.L. Fitting
- Flame Adjusting Needle Valve
- Spark Lighter
- Pipe Thread Sealant

TRUCK/ATV DRIP TORCH MOUNTING BRACKET

ITEM #: 85051

Securely stow your drip torch upright on your truck or ATV with this heavy-duty galvanized bracket. Designed to prevent tipping, the spring retainer holds the torch firmly in place—even over rough roads and uneven terrain. Fits standard Sure-Seal and Jim-Gem drip torches.

10-MINUTE BACK FIRE TORCH

ITEM #: 4100

- 72 torches per box
- Waxed, paper bonnet, 4" handle

OUTBACK 600™ & 600 HD™ HOSE

NFPA

ITEM #: OB600 (OUTBACK 600)
ITEM #: OB600HD (OUTBACK 600 HD)

Outback 600 - Polyurethane (TPU) Lining / Polyester Single Jacket

- Poly-Cord™ ring-spun polyester warp yarns are combined with filament polyester filler yarns
- High visibility yellow Ultra-Shield™ polymeric coating for improved abrasion resistance and reducing moisture and chemical absorption
- Polyurethane inner lining is extremely strong and durable, while maintaining a lightweight and compact profile
- Available in 50' and 100' lengths

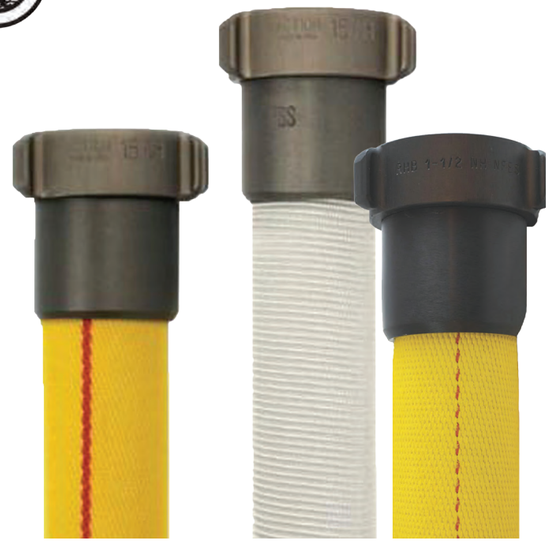

Outback 600 HD - EPDM Lining / Polyester Single Jacket

Same features as the OUTBACK 600, plus:

- The EPDM rubber lining is unaffected by Ozone deterioration, and is one component in the Friction Fighter System™, creating an extremely smooth waterway surface, thereby reducing friction loss and improving nozzle performance
- The Dura-Bond™ vulcanized fusing system, which creates both a mechanical and chemical permanent bond between the EPDM lining and the jacket to eliminate the possibility of delamination
- Available in 50' and 100' lengths

OUTBACK AND NAFH-187 MODELS

1” or 1.5” couplings available in NH or NPSH Aluminum Rocker Lug, or Aluminum Quarter-Turn connections

FLASH POINT HOSE

ITEM #: FH FIREQUIP

Flash Point forestry hose is a lightweight, all-synthetic fire hose with a polyurethane lining inside a polyester jacket that meets the USDA Forest Service Specification 5100-187 Type II for “Synthetic Lined” fire hose.

Designed for easy transport by backpack or by hand, it excels in challenging conditions, making it ideal for long distances over steep or rough terrain in forest environments. The WearGuard treatment greatly increases abrasion and heat and flame resistance while virtually eliminating water pickup.

- Available in 50' or 100' lengths
- 1” or 1.5” couplings available in NH or NPSH Aluminum Rocker Lug, or Aluminum Quarter-Turn connections

BLAZELINE HOSE NFPA

ITEM #: 7F (BLAZELINE 7 - TYPE I)
ITEM #: 8F (BLAZELINE 8 - TYPE II)

The BlazeLine is a lightweight, all-synthetic fire hose featuring a durable polyurethane lining within a polyester jacket. It is engineered to meet USDA Forest Service Specification 5100-187 for “Synthetic Lined” fire hoses. The Type 187 forestry hose meets or exceeds the lightweight requirements outlined in its specifications, ensuring reliable performance in demanding environments.

- BlazeLine™ 7 is designed for traditional Type I specifications
- BlazeLine™ 8 meets Type II specification and boasts mildew-resistant properties to eliminate the need for drying
- Available in 50' or 100' lengths
- 1” or 1.5” couplings available in NH or NPSH Aluminum Rocker Lug, or Aluminum Quarter-Turn connections

ULTRA FORESTRY

ITEM #: UF FIREQUIP

Ultra Forestry is polyester single jacket, polyurethane lined fire hose. Engineered for durability and convenience, making it ideal for carrying over challenging terrain, whether on a backpack or by hand. Its premium quality construction ensures reliability during brush, grass, and forestry fires. This versatile hose is compatible with portable pumps, heavy-duty pumps, and tank trucks, providing excellent performance in demanding fire situations.

- Available in 50’ and 100’ lengths
- Brass 3/4" garden hose couplings

EXPANSION RING COUPLING

RE-ATTACHABLE COUPLING

LIGHTWEIGHT BOOSTER HOSE 600

ITEM #: LBH-600

This lightweight booster hose is 100% polyester jacket construction designed for ease of handling. The Dura-Bond vulcanized adhesion system, which creates both a mechanical and chemical bond between the EPDM lining and the jacket, reduces the probability of delamination as is experienced with competitive adhesive bonded rubber lined constructions.

- Available in 50' and 100' lengths
- Immune to the effects of mildew and rot, requiring less maintenance after use
- 1” expansion ring or re-attachable couplings in NH or NPSH connections

FIRE ENGINE BOOSTER

ITEM #: BOOSTER HOSE

The Fire Engine Booster hose is a robust and dependable choice for effective firefighting. Its multiple braid reinforcement provides durability, while the specially compounded Ethylene Propylene Diene Monomer (EPDM) outer cover offers excellent resistance to abrasion and weathering. Inside, the smooth black synthetic EPDM rubber enhances flexibility and ensures optimal flow and performance, making it ideal for tackling fires with confidence and reliability.

- Available in 50’ and 100’ lengths
- 1” couplings available in NH/NPSH Aluminum, Barway Brass, or Barway Chrome Brass
- 1.5” couplings available in NH/NPSH Aluminum or Barway Brass

TWISTER® TIPS AND NOZZLES

The Twister is a lightweight combination nozzle designed for forestry, wildland firefighting, and general-purpose water delivery applications. Available in dual-gallonage, fixed-flow, and barrel nozzle configurations, Twister gives firefighters the ability to quickly adjust stream patterns and flow rates with a simple twist of the barrel. Its durable construction, foam compatibility, and straightforward operation make it a trusted choice for departments seeking reliable performance without unnecessary complexity.

FOAM ATTACHMENTS

ITEM #: FJ-MX-D (FITS 1” TWISTER)
ITEM #: FJ-MX-F (FITS 1.5” TWISTER)

Air-aspirating foam-making attachment for 1” or 1.5” Twister Series nozzles. Flow range matches that of corresponding Twister Series nozzle (needed for operation). Constructed of durable UV stabilized polyethylene and aluminum.

BUBBLE CUP® TIPS AND NOZZLES

Bubble Cup is a combination nozzle designed to produce aspirated finished foam, a conventional straight stream, and a wide fog pattern from the same nozzle body. Instead of stopping to add a foam tube or swap equipment, firefighters can change the nozzle’s function by moving the outer sleeve. Pull the sleeve forward to aspirate foam, or retract it to return to standard fog operation.

C&S SUPPLY

SWIVEL SHUT-OFF BALL VALVE

ITEM #: SBV10SS (1”)
ITEM #: SBV15SS (1.5”)

Constructed of hard anodized aluminum with a 1" waterway and a quality polymer ball and seat/seal mechanism for smooth, dependable operation. Non-Pistol grip version.

OPTIONS

- NPSH or NH thread
- 1” or 1.5”
- Metal or composite shutoff handle

S&H

SWIVEL SHUT-OFF BALL VALVE

ITEM #: SOV-SW

Crafted from anodized aircraft aluminum with a heavy duty cast aluminum handle, S&H shut-off valves are ultra lightweight and durable. Built to US Forest Service Standards (FSS) these valves are certified at 600 psi working pressure and stagnant pressure ratings of 1,200 psi. Polymer ball and seating reduces friction while operating under pressure.

OPTIONS

- NPSH or NH thread
- 1” or 1.5”
- Valve only or with pistol grip

ALSO AVAILABLE - RIGID BODY BALL VALVE

ITEM #: SOV-RB Valve only, 1” or 1.5”, NPSH or NH

HEN®

HYDRO 100 SHUT-OFF GATE-BALL VALVE

NFPA

ITEM #: HYDRO 100 SHUTOFF
ITEM #: 100P00-00 (PISTOL GRIP ACCESSORY)

High-durability hydro shut-off featuring a 1" waterway and a metal gate-ball valve for superior flow performance. Constructed with an aluminum alloy body for maximum durability and ergonomically designed for reliable operation. NFPA 1964 compliant. Pistol grip sold separately.

OPTIONS

- NPSH or NH thread
- 1” or 1.5”

WATER FLOW
PRODUCT AWARENESS

Our **Water Flow Product Awareness Team** helps firefighters gain a deeper understanding of the tools and technology that keep water moving on the fireground. From nozzles and monitors to valves and hose, we provide product awareness and hands-on demonstrations to ensure crews know how to operate and maintain their equipment effectively. By combining classroom instruction with real-world application, we equip firefighters with the knowledge and confidence to maximize performance and reliability when it matters most.

WILDLAND GATED WYE VALVE

ITEM #: GATED WYE (LONG HANDLE)
ITEM #: GATED WYE SHORT (SHORT HANDLE)

Cast aluminum S&H gated wye valves are ultra light weight and durable. These wye valves are built to meet US Forest Service Specifications (FSS) and are certified at 600 psi working pressure and 1,200 psi stagnant pressure. Polymer ball and seating reduces friction while operating under pressure.

OPTIONS

- NH or NPSH threads
- **Short Handle**: 1” or 1.5” Inlet and Outlets
  - Available in lightweight aluminum
- **Long Handle**: 1”, 1.5” or 2.5” Inlet and Outlets
  - Available in lightweight aluminum, powder coated red, or corrosive resistant & powder coated red

BRASS GATED WYE VALVE

ITEM #: WV75B

Durable brass valve construction with smooth-operating brass balls and front and rear seats for reliable performance. The seat design creates a smoother waterway, reducing friction loss through the valve.

- .75” Female Inlet x (2) .75” Male Outlets
- Built to the USDA FS 5100 Series Specifications
- 3/4” GHT threads

PART OF WATERSHIELD SPRINKLER KIT
SEE NEXT PAGE

WATERSHIELD SPRINKLER KIT

ITEM #: WS-SP-75NH

Watershield Sprinkler Kit designed for reliable structure and area protection. Constructed with a hard-anodized aluminum elbow, stainless steel bolts, and brass hose connections with sprinkler head for durability. Individually tested and operates at a working pressure of 35–60 psi. Kit includes:

- Impact sprinkler head with USFS ELBOW and 3/4"GHT(NH) inlet - 7/64" outlet (standard) (NFES 0999)
- USFS 3/4" Wye valve to regulate the inlet and allow for adding additional sprinklers (NFES 0904)
- 2 x 18" stakes to mount the sprinkler (NFES 0913)
- 2 x V-bolts to attach the sprinkler to the stakes and to extend the length of the assembly
- 3/4" GHT(NH) hose connections

ALUMINUM FOOT VALVE & STRAINER

ITEM #: 250288 (1.5" NPSH)

ITEM #: 250151 (2" NPSH)

The Aluminum Foot Valve and Strainer is a spring-loaded check valve, capable of holding a water head equal to 300 PSI. Designed with an ear hole for ease of tying to a flotation device in order to prevent suction of debris. Specifically made for use on the WATERAX MARK-3, BB-4, STRIKER II-PLUS, ULTRASTRIKER, and any other pumps using a 1.5 in. or 2 in. NPSH.

SIZES

1.5" or 2" NPSH

FLOMATIC 60SE FOOT VALVE WITH STRAINER

ITEM #: 410

SIZES

NPT* in 1", 1.5", 2", 2.5", 3", or 4"

*Adapter sold separately for NH or NPSH thread connection.

FOOT VALVE & STRAINER

ITEM #: 23952 (1.5" NH)

ITEM #: 23954 (2.5" NH)

A full flow clapper valve assures maximum flows with no restriction. Adhered to the end of suction hose for drafting, the valve assures that the pump does not lose its prime and holds its prime once the pump is turned off.

- Manufactured from hard anodized aluminum
- Reinforced stainless steel screen

SIZES

1.5" or 2.5" NH

EJECTORS

Ejectors are valuable tools for obtaining additional water from sources that are difficult or impossible to access directly. Using a small amount of pressurized water to operate, they can move more than twice the volume supplied, lifting water from up to 70 ft below the pump or from sources several hundred feet away.

NOZZLE CUP MOUNT

ITEM #: NCM

Mounts and secures pre-connected nozzles on emergency vehicles for quick access.

- Cup can be mounted directly to virtually any horizontal surface. Mount to a vertical surface via an optional L-bracket *(sold separately, see below)*.
- Made with durable, moisture-resistant neoprene rubber for years of use in wet environments

SIZES

NCM: up to 3-1/2" diameter
NCM-1: up to 5-1/2" diameter
NCM-B-TFT: up to 3-1/8" diameter
NCM-H-TFT: up to 4-5/8" diameter

NEOPRENE POST MOUNT

ITEM #: NPM

This solid, moisture-resistant neoprene rubber post is an excellent choice for storage of standard play pipes and stacked couplings.

- 4" W at bottom, 1-3/8" W at top x 9-1/8" H *(when mounted)*

NOZZLE CUP L-BRACKET

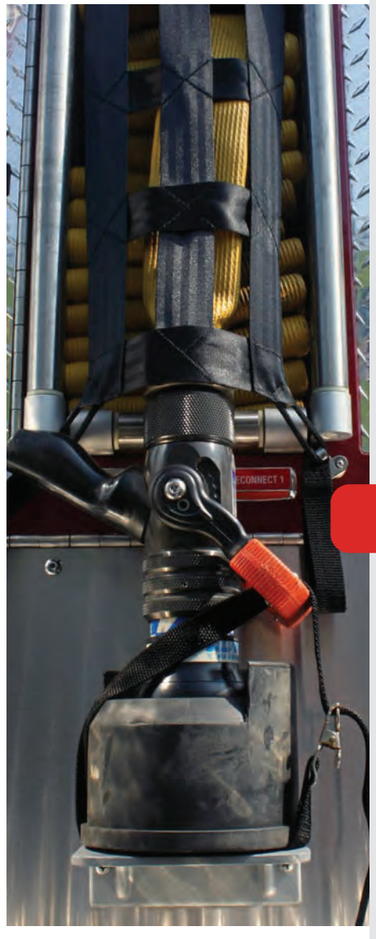

ITEM #: NCM-BC (CHROME), NCM-BB (BLACK)

Optional L-bracket that can be rotated to hold the Nozzle Cup Mount either 5" or 6-7/8" away from the vertical mounting surface.

COLORS

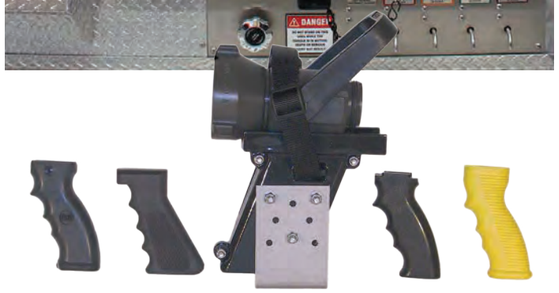

Black *Chrome*

Zico
ZIAMATIC CORP

PISTOL GRIP NOZZLE MOUNT

ITEM #: NBM-2

Designed to fit most pistol-grip style fire nozzles.

- Handle slot is 2” L x 1.35” W
- PVC-coated bracket can be mounted horizontally or vertically
- A quick-release safety strap holds the nozzle securely in place
- Great for booster lines

COUPLING MOUNT

Made from moisture-resistant neoprene rubber, it allows couplings to simply slide on for safe, organized storage and lift off quickly—no straps or clips required.

ITEM #	FOR USE WITH
CM1.5	1-1/2” or 2” threaded male or female end
CM2.5	2-1/2” threaded male or female end
CM3.0/4.0	3” or 3-1/2” threaded male or female end; or 4” Storz end
CM4.0	4” threaded female end
CM4.5	4-1/2” threaded female end
CM5.0	6” threaded male end; or 5” threaded female end
CM6.0	6” threaded female end

STORZ COUPLING MOUNT

ITEM #: SCM-4 (4”)
ITEM #: SCM-5 (5”)

All the same features as the Coupling Mount, designed specifically for Storz couplings.

1” or 1.5” NH mounting plate made from chrome-plated brass for durability and corrosion resistance.

QUIC-LOC MOUNTING PLATE

ITEM #: QL48Z10C (1” NH)
ITEM #: QL48Z15C (1.5” NH)

Zinc chrome plated mounting plate available in 1” and 1.5” sizes.

FORESTRY HOSE STRAP

ITEM #: CL CURTIS CARE PPE

This strap delivers strength and durability for carrying, transporting or securing forestry hose. Made from nylon tubular webbing sewn into a continuous loop, the 1” width has an approximate breaking strength of 4,000 lbs., while the 2” width is rated at approximately 7,000 lbs.

SIZES

1” x 4’
1” x 5’
1” x 6’
1” x 7’
1” x 8’
2” x 2’
2” x 4’

COLORS

Black Red White

NYLON WEBBING HOSE STRAP

ITEM #: NVHS-342

The Nylon Webbing Hose Strap is made from durable 2” black nylon webbing and features a secure Velcro closure with a pull loop for quick handling. Measures 34” when fully open. Sold as a single strap.

R&B FABRICATIONS, INC.

SINGLE GRIPPER STRAP WITH VELCRO

ITEM #: SGS-2

Designed for hose packs, this heavier-duty strap uses four leverage points to tightly compress hose bundles and features a wider adjustment range.

RED GRIPPER STRAP

ITEM #: SGS-3

A lighter, multi-purpose strap with a metal loop and Velcro closure, ideal for quickly bundling hose or securing cords and equipment.

HOSE RETAINING RUBBER BANDS

ITEM #: HRRB

Ideal for securing 1” or 1.5” forestry hose during storage, transport, and deployment. Sold by the pound (approximately 13 bands per pound). Each Hose Retaining Rubber Band measures 9.5”L x 1.37”W.

R&B FABRICATIONS, INC.

FORESTRY HOSE PACK

ITEM #: FORESTRY HOSE PACK

Constructed from durable 22 oz. vinyl.

SIZES

Small - holds two 50’ rolls of 3/4” forestry hose
Medium - holds 200’ of 1” forestry hose
Extra-Large - holds 300’ of 1” forestry hose

R&B FABRICATIONS, INC.

HOSE ROLL BAG

ITEM #: 422 RBFAB

This hose bag is designed to carry any type of hose that is stored coiled.

- Constructed from durable 22 oz. vinyl
- Secures approximately 100’ of 3” hose, approximately 200’ of 1 1/2” hose or 1 section of LDH
- Attached adjustable shoulder strap
- Dimensions: 22”L x 22”W x 8”D

3/4" FORESTRY HOSE WINDER

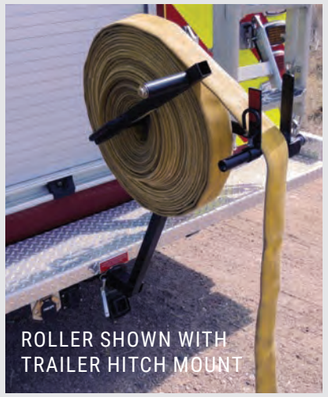

ITEM #: 4100 SCOTTY

Quickly winds up 50’ of 3/4” flat forestry hose line while draining water and removing debris, creating a tight roll for neat, organized storage.

SQUARE WALL MOUNT **INCLUDED**

C&S SUPPLY

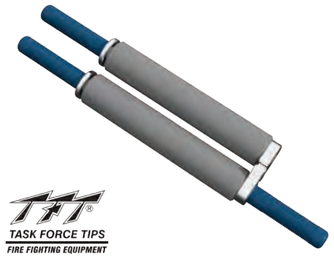

RAPID COIL HOSE ROLLER WITH STANDARD MOUNTING BRACKET

ITEM #: MC40 (1" TO 1½" HOSE)
ITEM #: MC65 (1½" TO 3" HOSE)

Ergonomic hose rollers designed to quickly coil fire hose for easier handling and storage. Available for 1"–1½" hose or 1½"–3" hose, each unit can roll up to 100' of single-jacket or 50' of double-jacket hose and includes a square wall mount for convenient setup.

MOUNTS FOR RAPID COIL HOSE ROLLER

ITEM #: THMB	Trailer Hitch Mount, works with any Class IV (2") hitch receiver
ITEM #: WLMB	Wildland Mount, ground stake design positions the hose roller at chest height
ITEM #: MB	Square Wall Mount, extra mount that can be bolted to a vertical surface

TFT TASK FORCE TIPS FIRE FIGHTING EQUIPMENT

HAND HELD HOSE ROLLER

ITEM #: A3820

For fast, easy removal of air and water from hose, "walk" the hose through the hose roller before reloading. Made of all lightweight materials.

Harrington.Inc. LDH System Specialists

HOSE ROLLER

ITEM #: HHR-1 (ONE-PERSON)
ITEM #: HHR-2 (TWO-PERSON)

Field-tested hose roller with a full 90° opening that flattens fire hose up to 5" in diameter, squeezing out trapped water, ice, and air. A two-person configuration allows rolling hoses up to 6" in diameter. Constructed from durable aluminum, the heavy-duty roller remains lightweight at under 5 lb.

The Rookie HOSE MANAGEMENT SOLUTIONS

SHOWN WITH OPTIONAL PORTABLE STAND

SHOWN ON VEHICLE WITH OPTIONAL HITCH MOUNT

ELECTRIC HOSE ROLLER

ITEM #: RS-13003
ITEM #: RS-12095 (OPTIONAL HITCH MOUNT)

Electric-powered hose roller designed to simplify hose handling and reduce strain during cleanup.

- Rolls fire hose from 1" to 7.5" diameter with motorized operation
- Heavy-duty powder-coated steel frame for durability in demanding environments
- Multiple mounting options including hitch, bench, stand, or ATV for field deployment

PORTABLE STAND FOR HOSE ROLLER

ITEM #: RS-13011

Portable wheeled stand designed to support and transport The Rookie hose rollers and ReLoader for convenient field use.

- Compatible with Rookie electric and gas hose rollers and the ReLoader
- Four flat-free wheels with front locking brakes for stable operation
- Heavy-duty powder-coated steel frame with maneuvering handle for easy transports

TASK FORCE TIPS FIRE FIGHTING EQUIPMENT

FORESTRY HOSE CLAMP

ITEM #: A3095

A compact aluminum hose clamp designed to quickly shut off water flow in 1” or 1.5” wildland hose with a self-locking mechanism for fast, secure control.

S&H PRODUCTS

BASIC FORESTRY HOSE CLAMP

ITEM #: HC-15

ITEM #: HC-E-15 (RED)

A durable wildland hose clamp designed to temporarily stop water flow in hoses up to 1.5”, providing a simple and dependable solution for field operations.

C&S SUPPLY

FORESTRY HOSE CLAMP

ITEM #: HC1510

A rugged wildland hose clamp designed to stop water flow in hoses up to 1.5” while protecting firefighters’ hands with an integrated knuckle guard.

HIGH-VISIBILITY FORESTRY HOSE CLAMP

ITEM #: HC1510-HIGH-VIZ

A high-visibility wildland hose clamp designed to stop water flow in hoses up to 1.5”, featuring a bright finish for improved visibility on the fireline.

REPAIR KIT AVAILABLE

TIMBERLINE HOSE CLAMP

ITEM #: FF1S

ITEM #: RK-FF1S (REPAIR KIT)

A lightweight aluminum hose clamp designed for quick shutoff when extending hose lines or changing nozzles during wildland firefighting operations.

POUCH AVAILABLE

WATERAX

B-5420 STRANGLER ALUMINUM HOSE CLAMP

ITEM #: 250139

ITEM #: 700696 (POUCH)

An aluminum hose clamp featuring dual clamping settings to accommodate varying hose thicknesses, allowing reliable shutoff on both single- and double-jacket hoses.

EZ SPANNER™

SCAN TO SHOP **EZ SPANNER**

CUSTOMIZABLE WRENCHES

These heavy-duty, customizable wrenches are designed to meet the needs of any fire district. Their high-strength aluminum body, stainless steel ratcheting components, and custom coupling hooks provide a secure fit on hose fittings while reducing slippage common with universal hooks.

RATCHETING HYDRANT WRENCH WITH STANDARD HANDLE

ITEM #: 4400 (4 HOLE)

This ratcheting hydrant wrench features four hole sizes and comes with a standard-length handle for reliable hydrant operation.

RATCHETING HYDRANT WRENCH WITH EXTENDABLE HANDLE

ITEM #: 2001 (2 HOLE)

ITEM #: 4001 (4 HOLE)

This ratcheting hydrant wrench features two or four hole sizes and comes with an extendable handle that adjusts from 19-1/2" to 23".

BILLY GOAT™ POCKET TOOL RATCHETING HYDRANT WRENCH

ITEM #: 3001 (2 HOLE)

This compact, lightweight, and cost-effective option in the EZ-Spanner™ lineup offers customizable features to meet your fire district’s needs at a lower price point.

SIZES

NON-RATCHETING HYDRANT WRENCH

ITEM #: 5001 (5 HOLE)

This wrench offers five size options to help quickly open caps and valves in the field. Its unique design places two of the most commonly used sizes at the top of the wrench for added leverage. Made from high-strength aluminum, the lightweight wrench features a wider ergonomic shape for a comfortable, natural grip and is finished with a durable blue anodized coating for long-lasting protection.

NON-RATCHETING SIZES

MINI-GOAT POCKET TOOL

ITEM #: MINI-GOAT

This compact, multi-purpose wrench is designed for tight spaces where standard hydrant wrenches can't reach, making it ideal for pump panel and field use. Made from lightweight, durable aluminum, it features custom hooks for fittings and couplings, dual gas shut-offs, and a multi-step nut wrench for standard nuts.

COLORS

Black *Silver* *Blue* *Red* *Green*

TOOL / HOSE BAG

ITEM #: HB-100

The EZ Spanner™ Tool / Hose Bag is designed to complement the EZ Spanner™ line of tools and fits most common hydrant tools used in the field. The bag attaches directly to your supply hose with three Velcro straps and expands with the hose when charged. Made from lightweight yet durable rip-stop waterproof material, it keeps tools protected and secure. A two-sided Velcro closure holds tools in place while allowing quick access with a single pull of the opening strap.

SPANNER WRENCH

ITEM #: A3813

For any style or size coupling from 1-1/4" to 4". Made of tough lightweight cast aluminum. Features include pin detail, window jimmy, gas cock slot, hammer head and hanger loop.

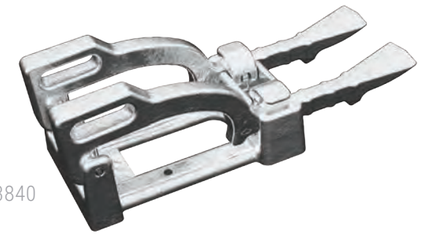

A3813

2 SPANNER WRENCH BRACKET SET

ITEM #: A3840

Lightweight cast aluminum bracket mounts to apparatus for easy accessibility. Features quick, snap-action release. Comes with two A3813 Universal Spanner Wrenches.

A3840

RES-Q-RENCH

ITEM #: SPAN1

This folding multi-function spanner wrench is designed to work with rocker lug handline and supply line couplings and will work with most 4" and 5" Storz locking couplings.

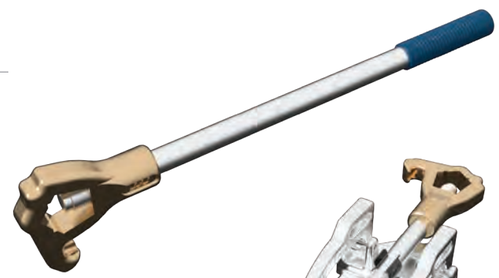

SPAN1

HYDRANT WRENCH

ITEM #: A3835

Adjustable to open any hydrant with pentagon and square heads. Features a manganese bronze compact head and plated steel handle. Spanner claw works on both pin and rocker lug style couplings.

A3835

3 WRENCH BRACKET SET

ITEM #: A3845

Lightweight cast aluminum bracket mounts to apparatus for easy accessibility. Features quick, snap-action release. Holds two A3813 Universal Spanner Wrenches and one A3835 Hydrant Wrench.

SMOKECHASER™ PRO 5-GALLON FIRE PUMP ⚠

ITEM #: 190514

Designed to offer the most comfort in the most grueling conditions of fire control. Equipped with the all-brass Fedco pump that is approved by the US Forest Service, the Smokechaser Pro also features a heavy-duty, flexible bladder that forms to the user's back when filled and is protected within a durable nylon bag.

SMOKECHASER™ CHIEF 5-GALLON FIRE PUMP

ITEM #: 190790

Rugged 5-gallon dual bag backpack made from UV-resistant, fireproof Cordura® fabric that rolls up for compact storage. Ergonomic design with padded straps and harness ensures comfort and balance, while the baffled liner improves stability. Features a USFS-approved FEDCO brass pump with combination nozzle for quick stream-to-spray adjustment and easy filling.

SMOKECHASER™ PRO WITH FP300 DUAL ACTION 5-GALLON FIRE PUMP ⚠

ITEM #: 190654

Durable 5-gallon backpack pump with a ballistic nylon bag and load-sensitive liner for reliable performance. Ergonomic padded straps reduce fatigue, while the dual-action pump delivers continuous flow on every stroke. Features a USFS-approved Fedco brass pump, quick disconnect, and MOLLE system for added versatility.

SMOKECHASER™ FSV500 COLLAPSIBLE FIRE PUMP BAG ⚠

ITEM #: 179061V

Compact 5-gallon collapsible backpack pump with a durable vinyl bag that rolls up for easy storage. Includes a bind-free Fedco brass pump, large fill opening, and watertight cap with tether. Padded straps and cinch system provide comfortable, balanced, hands-free use.

WATERAX

INTRODUCING THE FULL MARK-3® LINEUP

The MARK-3 family now includes four configurations designed to match different operational preferences and mission requirements.

MOBILITY
Unit is 30% lighter and 20% smaller.

USER-FRIENDLY
Smart, intuitive and easy to use.

SAFETY
Design and features to improve safety.

EASE OF START
Starting a MARK-3 pump has never been this easy!

MARK-3® WATSON EDITION HIGH-PRESSURE FIRE PUMP

ITEM #: 100137

LIGHT. SMART. POWERFUL.

Maintaining the tradition while moving technology forward: the MARK-3 Watson Edition plugs right into your existing MARK-3 water-moving systems. The MARK-3 Watson Edition greatly improves user experience in the following areas:

- 80 GPM @ 100 PSI
- 70 GPM @ 150 PSI
- 40 GPM @ 250 PSI
- Max Pressure: 380 PSI
- Max Flow: 100 GPM
- Max Head: 877’

WATSON SHOULDER STRAPS

ITEM #: 701798 Padded shoulder straps make it easier to carry Waterax equipment

NEW

MARK-3® WATSON EDITION FIRE PUMP WITH INTEGRATED FUEL TANK

ITEM #: 100159

The MK3-WW is purpose-built to deliver exceptional portability and endurance for wildland firefighting operations. Its integrated 1 US gallon (3.8 L) fuel tank provides up to ~45 minutes of uninterrupted runtime at full throttle - 100% and ~65 minutes at 75% throttle, allowing crews to stay focused on suppression efforts instead of refueling.

MYWATERAX PUMP DASHBOARD MOBILE APP

The Ultimate Tool For Real-Time Monitoring Of The Mark-3® Watson Edition Pump

- Real-time data for tracking engine performance
- Connection history log for better operational insights
- User-friendly interface for quick access to critical data
- Geolocation capabilities to log pump locations and optimize fleet management

- 40 GPM @ 250 PSI
- Max Pressure: 380 PSI
- Max Flow: 100 GPM
- Max Head: 877’

NEW

MARK-3® ESSENTIAL FIRE PUMP WITH INTEGRATED FUEL TANK

ITEM #: 100169

The MK3-EWS delivers the trusted high-pressure performance of the MARK-3® platform with the simplicity and durability of a fully mechanical system. Designed for crews who need a dependable, no-nonsense pump, it features an integrated 1 US gallon (3.8 L) fuel tank that delivers up to ~45 minutes of uninterrupted runtime at full throttle - 100% and ~65 minutes at 75% throttle.

Ideal for rapid deployment scenarios where minimizing refueling interruptions is critical.

WATERAX

MINI-MARK
WATSON EDITION

MINI-MARK® WATSON EDITION 2-STROKE LIGHTWEIGHT HIGH-PRESSURE PUMP

ITEM #: 100147

The MINI-MARK Watson Edition lightweight high-pressure pump is designed for versatility and portability. It excels in various applications, and its backpackable design enables firefighters to easily transport it to remote locations. This innovative pump features an electronic overspeed cutout switch, while its anodized aluminum components enhance durability.

- 66 GPM @ 25 PSI
- 50 GPM @ 50 PSI
- 31 GPM @ 75 PSI
- Max Pressure: 85 PSI
- Max Flow: 102 GPM
- Max Head: 196’

BB-4

BB-4® HIGH-PRESSURE FIRE PUMP

The BB-4 is a high-pressure centrifugal pump that has been the weapon of choice in many wildland operations and is especially suited for type 6 brush trucks. A unique feature is the quick release 12-16S pump end that is interchangeable with the classic MARK-3. This greatly reduces spare part inventories and allows for quick infield swap outs.

This unit is available in many different configurations:

- Portable
- Vehicle-mounted
- Horizontal and vertical drive orientation
- Engine-mount control panel
- Fuel tank
- Exhaust primer

MINI-STRIKER

MINI-STRIKER® LIGHTWEIGHT HIGH-PRESSURE FIRE PUMP

ITEM #: 100053

The MINI-STRIKER pump pairs a reliable single stage pump end with the Honda 4-stroke 2.5 HP engine. Extremely portable and lightweight, this mini powerhouse performs well when used by itself or in tandem with other pumps.

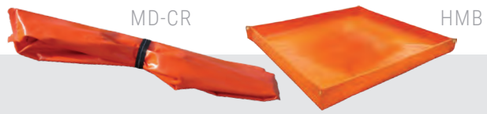

- 68 GPM @ 25 PSI
- 42 GPM @ 50 PSI
- 12 GPM @ 75 PSI
- Max Pressure: 85 PSI
- Max Flow: 80 GPM
- Max Head: 196’

VERSAX® MULTIPURPOSE PUMP

The VERSAX® is a versatile, rugged and economical twin-impeller self-priming pump powered by a Honda or a Briggs & Stratton Vanguard. It provides superior water-transfer performance as well as the ability to combat fire from greater distances and points of elevation. The VERSAX® is a multipurpose fire pump that can also be used for other applications such as tank filling, water transfers and as ATV slip-on units.

- Twin-impeller design provides additional pressure for longer and higher pumping applications
- Pump casing and diffusers manufactured from quality corrosion-resistant grade aluminum for long life
- Nylon glass fibre reinforced impellers are fully corrosion-proof and lightweight
- Removable discharge and suction ports

ITEM #: 250219

- 1-1/2” NH
- Aluminum
- T-handle for an easy grip
- Knurled end for ease of attachment to male thread

TASK FORCE TIPS
FIRE FIGHTING EQUIPMENT

PRO/PAK PORTABLE FOAM SYSTEM

ITEM #: PRO-PAK

Ideal for rapid vapor suppression with Class A or B foam concentrates. The PRO/pak attaches to a 1" or 1.5" hose and features a 2.5-gal reservoir with built-in adjustable eductor. A twist-grip valve controls flow and doubles as a carry handle, and three quick-connect nozzles produce low or medium expansion foam at low inlet pressures.

MODELS

UM12: 1" NH Female
UM12-NF: 1.5" NH Female, Angled

AMEREX

MODEL 240 WATER CLASS A EXTINGUISHER

ITEM #: 240

The Amerex model 240 fire extinguisher utilizes the cooling, soaking, and penetrating effect of a 45-55 foot stream of water. The 55-second discharge time makes it effective for inexperienced operators for use on Class A fires that include combustibles such as wood, cloth, paper and many plastics. The chrome-plated brass valve and polished stainless steel cylinder construction helps eliminate corrosion. This fire extinguisher, which has a 5-year manufacturers warranty, ships empty.

ANSUL

SENTRY 2.5 GAL. WATER CLASS A EXTINGUISHER

ITEM #: 430847

This water unit features a stainless steel shell, stainless steel valve and Schrader valve allows for easy recharge in the field. Meets or exceeds UL / ULC requirements.

COLLAPSIBLE PAIL

ITEM #: 83224

Round, collapsible pail made from vinyl-coated nylon scrim with a reinforced top rim for added durability. Features high-strength, leakproof seams capable of withstanding up to 100 psi hydrostatic pressure. Meets NFES #0141 specifications.

ANSUL

SENTRY STORED PRESSURE DRY CHEMICAL EXTINGUISHER (CLASS ABC)

ITEM #: 438735 (2.5 LBS. WITH VEHICLE BRACKET)
ITEM #: 442257 (5 LBS.)
ITEM #: 442258 (5 LBS. WITH VEHICLE BRACKET)
ITEM #: 436500 (10 LBS.)
ITEM #: 434747 (20 LBS.)

Compact, portable extinguisher designed for the protection of light and ordinary hazard occupancies.

- Seamless steel cylinder with high tensile strength
- Extruded aluminum, brass or plated steel components
- USCG approved with proper bracket
- Rechargeable
- Extinguisher shells are 100% factory air tested in excess of 600 psi (41.4 bar)
- Large, easy-to-read pressure gauge
- 2.5- and 5-lb. units also available with vehicle bracket
- 6-year limited warranty from date of delivery to original end-user purchaser

RED LINE CARTRIDGE OPERATED HAND PORTABLE FIRE EXTINGUISHERS (CLASS ABC)

ITEM #: 445451 (10 LBS.)
ITEM #: 445454 (20 LBS.)
ITEM #: 445457 (30 LBS.)

Cartridge-operated means increased reliability, on-the-spot recharge, ease of service, and superior performance.

- Meets or exceeds requirements of ANSI/UL 299 and 711 or ULC S504 and S508
- Choice of dry chemical agents to satisfy specific protection requirements
- 12-year limited warranty
- Field rechargeable
- Field replacement metal cartridge guard option available for 20 and 30 lb. extinguishers
- Class D dry powder agents available in 30 lb. extinguisher models
- Factory Mutual (FM) and USCG Approved

EXTINGUISHER CAN HARNESS SYSTEM

ITEM #: CH-312

Heavy-duty extinguisher harness designed for secure, reliable carry—ideal for cans with plastic bottoms. Two 3” Velcro straps provide up to 2,700 lbs of holding strength each, while an integrated safety strap with D-ring prevents accidental release. Features a center carry strap for easy one-handed transport and fits most extinguishers.

Extinguisher sold separately.

R&B FABRICATIONS, INC.

WATER CAN CARRIER ⚠

ITEM #: CS-415

This water extinguisher sling securely holds your H2O extinguisher for easy transport. The fully adjustable design fits most commercially available extinguishers and features a 20.5” deep can compartment.

AMEREX

ABC MULTI-PURPOSE STORED PRESSURE DRY CHEMICAL EXTINGUISHER

ITEM #: B417T (2.5 LBS. WITH VEHICLE BRACKET)
ITEM #: B402T (5 LBS. WITH VEHICLE BRACKET)
ITEM #: B456 (10 LBS.)
ITEM #: A411 (20 LBS.)

ABC or MULTI-PURPOSE extinguishers utilize a specially fluidized and siliconized mono ammonium phosphate dry chemical. It chemically insulates Class A fires by melting at approximately 350°F and coats surface where it is applied. It smothers and breaks the chain reaction of Class B fires and will not conduct electricity back to the operator.

ALUMINUM VALVE— Light to Medium Duty

- Anodized aluminum valve body
- Anodized aluminum handle and lever

ITEM #: 2L (2-LITER)
ITEM #: 6L (6-LITER)
ITEM #: 9L (9-LITER)
ITEM #: TRPL-E-5 (5-GALLON)

ALL LITHIUM BATTERY TYPES

E-FireX extinguishers are highly effective on lithium battery fires and can also be used on various other types of fires, making them a valuable tool for fire safety in multiple environments.

ECO-FRIENDLY AND SAFE

E-FireX extinguishers are crafted from completely natural, decomposable materials. This renders them eco-friendly and safer for use near people and animals than conventional chemical fire suppressants.

NFPA 18A ANNEX 4.3

Recognized according to NFPA 18A Wetting Agent guidelines per the standard. Effective in extinguishing fires of multiple classes. No PFOS, PFOA, or other harmful PFAS chemicals.

COVERS FOR SELF-SUPPORTING TANK

ITEM #: SSTGC (GROUND COVER)
ITEM #: SSTTC (TOP COVER)

Protects Self-Supporting Tank bottoms and tops from wear, abrasion, and punctures—extending tank life and helping keep it clean. All seams are heat sealed for added durability. Covers are available in multiple sizes with the same color and material options as Self-Supporting Tanks.

HOSE SUPPORT STAND

ITEM #: HSS

This light weight aluminum hose stand is designed to support a large diameter hose when filling and draining a Self-Supporting Tank or Rol-La-Tank. This hard suction hose support stores easily in limited spaces or the Rol-La-Tank storage bag.

FOL-DA-TANK

LOW-LEVEL STRAINER® NFPA

ITEM #: LFS

- Maximizes pumping capacity in low-water conditions, operating efficiently in as little as 1.5”–2” of water
- High-flow performance delivers approximately 1500–2000 GPM (tested on 6” model) for reliable drafting
- Rugged Al-mag aluminum construction provides exceptional strength and long-lasting durability
- Designed for ease of use with swivel connections, resistance to surface turbulence, and compact storage in truck compartments
- Thread Type: NH, NPT, Storz and Camlock
- Thread Orientation: Female, Male or Storz

THREAD SIZES

2.5”, 3”, 4”, 4.5”, 5” or 6”

FLOAT DOCK STRAINER® NFPA

ITEM #: FDS

- Keeps the strainer suspended just below the water surface to draw from the cleanest water source
- Ideal for drafting from lakes, ponds, and portable tanks where debris and sediment are present
- Durable construction with integrated flotation collar for stable, consistent performance
- Helps maintain prime and reduce clogging by minimizing intake of mud, sand, and debris
- Float material: Poly, Aluminum or No Float
- Thread Type: NH, NPT, Storz and Camlock
- Thread Orientation: Female, Male or Storz

SIZES

1.5”, 2”, 2.5”, 3”, 4”, 4.5”, 5”, 6” or 8”

THROUGH WALL DRAFTING KIT

ITEM #: FGTWDK

Includes all components needed to draft directly from your tank in-line with your apparatus. This configuration helps reduce pump priming time and minimizes cavitation.

Kit includes:

- 1 - Suction elbow (FGELB)
- 1 - Flange mount kit (IOFLC)
- 1 - Flange mount plate (FMP)
- 1 - Low-Level Strainer (LFS)
- Thread Type: NH, NPT, Storz and Camlock

5” or 6”

FOL-DA-TANK

SCAN TO SHOP
FOL-DA-TANK

POWER JET SIPHON® NFPA

ITEM #: FGPJS

Designed for use with two or more Fol-Da-Tanks. The siphon connects to a hard suction hose and assists the transfer of water from one tank to another. This keeps the main tank full of water for drafting as the secondary tank is refilled. NFPA 1142 compliant.

- NH, NPT, Storz and Camlock threads standard *(other threads available upon request)*

THREAD SIZES

4”, 4.5”, 5” or 6”

8 HOOK SAFETY CUTTER

ITEM #: 8 BLKW
ITEM #: 8 BLKWMED (WITH O2 WRENCH)

Cut quickly and reliably in an emergency situation. The model 8's longer handle provides greater reach and leverage. MOLLE compatible.

7 HOOK SAFETY CUTTER

ITEM #: 7 BLKW

Cut quickly and reliably in an emergency situation. The larger handle of the 7 hook design works well with gloved hands and the coated handle allows for better grip. MOLLE compatible.

MINI OSBORNE KNIFE

ITEM #: 945BK-1

Compact folding knife with a lightweight design for everyday carry and precision cutting tasks.

TRIAGE® BLACK G10 KNIFE

ITEM #: 916SBK
ITEM #: 917SBK (TACTICAL)

Multi-purpose folding rescue knife featuring a seatbelt cutter; the 916SBK includes an opposing bevel blunt-tip blade for safer cutting, while the 917SBK features a sharp blade for added versatility.

CHANNELLOCK

85 10-INCH FENCE TOOL

ITEM #: 85

10" fencing tool combining six functions, including wire cutting, crimping, staple driving/pulling, and wire splicing for installation and repair.

911 9.5-INCH CABLE CUTTING PLIERS

ITEM #: 911 (STANDARD HANDLE)
ITEM #: 911CB (CODE BLUE HANDLE)

9.5" cable cutting pliers designed to cleanly cut large aluminum and copper cables with high-strength, rust-resistant construction.

86 9-INCH XLT RESCUE TOOL

ITEM #: 86

9" rescue tool with XLT™ joint for easier cutting, featuring pry, cutting, gas shutoff, and spanner functions with one-hand operation.

OUTDOOR SOLUTIONS SINCE 1962™ tecnu®

ORIGINAL OUTDOOR SKIN CLEANSER

ITEM #: TEC14130 (4 OZ.)
ITEM #: TEC11200 (12 OZ.)
ITEM #: TEC13200 (32 OZ.)
ITEM #: TEC14150 (0.5 OZ. PACKETS, BOX OF 50)

Removes rash-causing oils from skin and gear to help prevent poison ivy, oak, and sumac irritation.

EXTREME POISON IVY SCRUB

ITEM #: TEC10100 (4 OZ.)
ITEM #: TEC10108 (2 OZ.)

Dual-action cleanser with exfoliating beads to remove urushiol oils and deeply clean skin after exposure.

DETOX WIPES

ITEM #: TEC10300 (12 SINGLE-USE WIPES)

Made from bamboo-derived rayon, these individually wrapped wipes clean skin, gear, tools, and pets—no water needed.

CALAGEL PAIN RELIEVING GEL

ITEM #: TEC86144 (144 SINGLE-USE PACKETS)
ITEM #: TEC86001 (6 OZ.)

This cooling, medicated gel relieves all five major poison oak and ivy symptoms.

RASH RELIEF SPRAY

ITEM #: TEC10210 (6 OZ.)

Medicated anti-itch spray that relieves irritation from poison ivy, oak, and sumac while promoting healing and drying blisters, with a touch-free pump for easy, no-contact application.

TEC10300 | TEC86001 | TEC10210

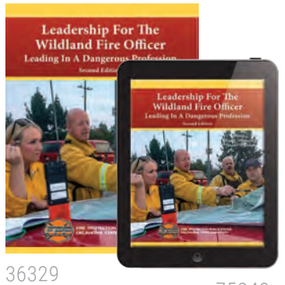

IVY COMPLETE KIT

ITEM #: TEC10130 TECNU

Includes 2 oz. scrub, 4 oz. gel, and three individually wrapped wipes. The scrub removes urushiol to help stop rash spread, the anti-itch gel soothes irritation, and the detox wipes remove oils after exposure.
